

CHIMDALU BENEDICT OFOEGBU

Product Designer · UI/UX Designer · Visual Designer

bensagesol@gmail.com | [LinkedIn](#) | bensage.design

PROFESSIONAL SUMMARY

Product Designer with 5+ years across decentralized applications, blockchain platforms, and DeFi ecosystems. I've led end-to-end design for products serving thousands of users across Web3, including DEXs, NFT marketplaces, and DAO governance tools.

My strong suit entails translating complex blockchain interactions into intuitive, accessible experiences through user research, prototyping, and close work with engineering and stakeholders.

PROFESSIONAL EXPERIENCE

Visual Design Expert | Mercor

Remote | September 2026 – Present

- Write, review and validate prompt-based design tasks used to train AI on graphic and UI design workflows
- Author prompts and reference responses that reflect real-world visual design process, from brief to finished asset
- Validate each prompt-response pair against professional standards in typography, layout, colour and brand
- Cover both graphic design and UI design tracks across multi-modal design workflows

Product Design/UX Expert | Mercor

Remote | August 2026 – September 2026

- Evaluate and rank AI-generated websites for a research project at a leading AI research lab
- Score each build on visual design quality, functional correctness, and instruction adherence
- Test live sites directly, covering navigation, interactive controls, runtime errors, and responsive layouts
- Write structured feedback that explains the reasoning behind every ranking

Product Designer | Beradrome

Remote | June 2023 – February 2025

- Led the full redesign of the Beradrome dApp on Berachain, improving functionality, usability, and visual consistency.
- Designed custom illustration assets and visual components that elevated the dApp's brand and aesthetic.
- Worked with developers to ship a native restaking and liquidity marketplace UI that made complex DeFi simpler for users.
- Fixed critical UX pain points around interest rate displays and liquidation warnings to clarify financial risk.

UI/UX Designer | Fedix Labs

Remote | November 2022 – July 2023

- Designed the Fedix Labs landing page and built the visual identity for a trustless, permissionless financial infrastructure platform.
- Led end-to-end UX on the Fedix Finance on-chain perpetual swap interface, optimizing trade execution flows.
- Created interaction patterns and UI components for order books, position management, and leverage controls.

Lead Designer | Ayoken Labs

Remote | November 2021 – November 2022

- Led design and prototyping for the Ayoken NFT Marketplace, the first collectibles platform built for musicians and creatives.
- Built reusable component libraries and marketplace UI patterns for NFT listing, minting, bidding, and collection management.
- Made executive pitch decks used in investor meetings that fed directly into fundraising and partnership work.

Product Designer | 1Hive DAO

Remote | August 2021 – September 2022

- Contributed UI/UX to Gardens, a governance product serving 10+ communities and 3,000+ users including BrightID.
- Ran user research and gathered qualitative feedback to inform iterative design across Gardens and Quests.

- Made wireframes, prototypes, and high-fidelity mockups using user-centered design and WCAG accessibility standards.
- Worked with engineers and DAO council members to scope features, validate design calls, and ship new functionality.

EDUCATION

Bachelors of Engineering (B.Eng)

*Electrical and Electronics Engineering | Federal University of Petroleum Resources, Effurun
2020 - 2025*

Associates Degree

*Electrical / Electronics Engineering | Federal Polytechnic Oke
2016 - 2018*

Data Science Fundamentals with Python and SQL Specialization

Coursera | 2026 - Present

Google Foundations of UX Design

Coursera | 2026 - Present

SKILLS

Design: User Interface Design, User Experience Design, Interaction Design, Wireframing, Rapid Prototyping, Design Systems, Visual Design, Information Architecture

Research: User Research, Usability Testing, User Journey Mapping, A/B Testing, Heuristic Evaluation, Competitive Analysis

Tool Proficiency (Design): Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, Notion, Framer, FigJam, Miro

Domain Expertise: DeFi (DEXs, Lending, Perpetuals), NFT Marketplaces, DAO Governance, Web3 dApp Design, Blockchain UX

Languages: English — Fluent (C2) across speaking, reading, and writing
